Basic Material List Sample

DEMONSTRATION PROJECT: 40 x 60 ft / Post frame / Slab foundation

A sample excerpt of common materials from an editable Studio design. Quantities come from the demonstration model, not from a customer project.

Material / specification	Size / length	Quantity	Unit
STOCK LUMBER			
2x4 lumber	20 ft	4	boards
2x4 lumber	18 ft	10	boards
2x4 lumber	14 ft	2	boards
2x4 lumber	12 ft	59	boards
2x4 lumber	10 ft	58	boards
2x4 lumber	8 ft	186	boards
2x6 lumber	24 ft	4	boards
2x6 lumber	10 ft	1	boards
2x6 lumber	8 ft	15	boards
2x8 lumber	8 ft	1	boards
6x6 posts / timbers	12 ft	27	boards
Pressure-treated 2x6 lumber	12 ft	1	boards
Pressure-treated 2x6 lumber	10 ft	1	boards
ASSEMBLIES, FINISHES & OPENINGS			
Manufactured roof truss plies	Fink / 40 ft span / 4:12 pitch	18	assembly
Board-and-batten metal siding	Bone White / net modeled area	2,630.16	sq ft
Standing-seam metal roofing	Black / net modeled area	2,744.86	sq ft
Standard exterior windows	36 x 48 in	3	each
Solid exterior doors	36 x 84 in / left inswing	1	each
Solid interior doors	36 x 84 in / left inswing	2	each

HOW TO READ THIS SAMPLE

Stock lumber shows purchasable lengths. The full exact takeoff records modeled cut lengths. Trusses require a manufacturer quote and design. Metal quantities shown here are net areas; panel lengths, laps and waste require supplier review.

This excerpt omits custom members, foundation quantities, hardware and garage doors. It is not a complete material package or a supplier quote.
